Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Continuation of Disposition of Claims: Claims withdrawn from consideration are 1,2,4,6,8,9,11,13,15,26,27,31,32,38,44-49 and 59-62.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 39,52,54,56,57 and 64 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 39 and 54 are merely functional and do not further limit any previously claimed element. Claim 52 is a double recitation of claim 50 from which it depends. In claim 56, is the means for attaching different form the attachment elements, as set forth in claim 50? The preamble of the claims stated only the seat is being claimed, therefore, the positive limitation to the stand, as set forth in claim 64, suggests that a combination of the seat and stand is being claimed, thus rendering the claim indefinite.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 33-37,39,40,43,50-52,54-57 and 60 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Greier. Greier shows a plurality of fittings at 47,44 for flexible elements 43.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 33-37,40,41,50-55,63 and 64 are rejected under 35 U.S.C. 103(a) as being unpatentable over Davis in view of Morris. Davis shows the claimed seat with the exception of the plurality of fittings and flexible elements. Morris shows of fittings 21,26 for attaching flexible elements 27 of as flexible body support to a U-shaped (14) portion of a support frame. It would have been obvious to one of ordinary skill in the art at the time the invention was made to provide the frame U-shaped support portions 32,36 of Davis with fittings and the seat 31 with flexible elements, as taught by Morris, to facilitate removable attachment of his seat to his frame.
